

Learning Disabilities Week

What does it mean to you to have a learning disability?

We want to create a montage with all your wonderful thoughts, feelings and experiences about what learning disabilities mean to you.

What is a montage you ask? Well, a montage is a technique of producing a finished product from fragments of pictures, text, or music.

We want to combine all of the text you send to us and piece it together to create a **visual montage to display at Centre 404.**

You can send us your thoughts, feelings, experiences...anything!
These can be **single words or a short passage** that you have written.

We want you to be **creative!**

Please send your passage to AliceB@Centre404.org.uk

We will create our montage and post the finished product on our website Blog page!
